Technical Skills

Languages: Dart , Kotlin , HTML/CSS (basic) , Python

Database: PostgreSQL

Developer Tools: Git, GitHub, Flutter, Android Studio, Supabase, Firebase

Other Skills: Leadership, Communication, Teamwork, Problem-solving

Education

NIMS University

November 2022 – 2027

B.Tech + M.Tech. (Int.) in Computer Science Engineering, CGPA: 7.05

Greenfields Public School, Delhi

July 2022

XII (CBSE), Percentage: 65.2%

Greenfields Public School, Delhi

July 2020

X (CBSE), Percentage: 74.6%

Experience

Intern : UptoSkills

June 05, 2025 – December 17, 2025 , Delhi, India

- Focused on Flutter app development across multiple features and screens.
- Assisted with backend development for a mobile app project, utilizing PostgreSQL and OneSignal, Google Maps API.
- Implemented secure authentication flows (OAuth / session management) for Login/Register, improving access control and reducing unauthorized access attempts.
- Progressed from intern responsibilities to leading a small development team of 15-20 members, coordinating feature delivery and reviews.

Projects

Imgshape | *Flutter (Dart), Supabase, GCP (Cloud Run / Cloud Functions)*

Link

- Built a Flutter-based app that enables users to upload images securely using Supabase Authentication and Storage buckets.
- Integrated a GCP-hosted backend to process uploaded images and return analysis, downloadable reports.
- Implemented Using REST API communication between Flutter GCP and structured metadata tracking through Supabase.
- Designed a clean modular UI/UX flow with async uploads and responsive layouts.

AnimeExplorer | *Kotlin, Jetpack Compose, MVVM, Retrofit, Room*

Link

- Developed a modern Android application using Jetpack Compose and Kotlin to explore anime content through Jikan API.
- Implemented MVVM architecture with Hilt dependency injection to maintain scalable, modular, and maintainable codebase.
- Designed a responsive Material 3 UI with features like trending lists, anime details, favorites management, and theme support.

StatGenie | *Flutter (Dart), Supabase, APIs, Android Studio*

Link

- Developed a Flutter-based mobile application for field surveyors to upload, process, and analyze statistical data with offline-first capabilities and cloud synchronization Using REST API .
- Designed and implemented a cyan-themed UI with three dashboards (Home, Upload/Output, Profile) for intuitive user interaction.
- Integrated Supabase for authentication (email/password, social login) and data management
- Implemented dynamic charts and data slicers (categorical, numeric, date filters) for interactive data analysis.

Notables & Achievements

- Intern of the month at UptoSkills as Flutter App developer.
- Led an esports Valorant team from NIMS University as IGL at a tournament hosted by Manipal University.
- Achieved 9th position as Team Leader of Team GRUBOX in the national-level **Ideathon 2.0**.

Certificates

- Workshop on Circuit Designing & Simulating Using TinkerCAD at **NIMS University**.
- One-Day Workshop On MATLAB & SIMULINK **Design Tech**.
- AI Tools And ChatGPT Workshop From **Be10X**.
- Supabase Bootcamp **Lets Upgrade**.
- Internship Experience Letter – **UptoSkills (Flutter Intern)**
- Certificate of Completion – **UptoSkills** (Flutter App Development Internship).
